Performance Work Statement
Integrated Facilities Management System (IFMS) Application Maintenance, Sustainment and Support
Centers for Disease Control and Prevention (CDC)

I. Background and Need:

The Centers for Disease Control and Prevention (CDC), is an Operating Division (OPDIV) of the Department of Health and Human Services (HHS), dedicated to protecting health and promoting quality of life through the prevention and control of disease, injury, and disability. HHS/CDC is recognized as the lead Federal agency for protecting the health and safety of people, providing credible information to enhance health decisions, and promoting health through strong partnerships. HHS/CDC's mission is to serve as the national focus for developing and applying disease prevention and control, environmental health, and health promotion and health education activities designed to improve the health of the people of the United States.

The Office of Safety, Security, and Asset Management (OSSAM) is a business service office within the CDC. OSSAM's mission is to provide a safe, secure, and healthy workplace environment for CDC staff while ensuring efficiency, environmental stewardship, and appropriate management of agency assets. OSSAM manages a real property portfolio of over 300 assets in the United States. This includes CDC-owned and leased properties as well as General Services Administration (GSA) leased properties. These assets represent over 6M square feet of space that enables CDC employees to efficiently and effectively carry out the mission of the CDC.

OSSAM's mission is of such complexity and magnitude that it requires a robust integrated facilities lifecycle management solution that would provide the tools necessary to execute its mission. In 2005, OSSAM began the development of a lifecycle management solution that would provide an integrated planning, management, tracking, and reporting tool in a single integrated portal. The (Commercial Off-The-Shelf Software) COTS software package TRIRIGA was selected as the base system to power and develop the CDC Integrated Facilities Management System (IFMS).

IFMS includes the following TRIRIGA Modules with varying degrees of implementation:
 Real Estate Management, Capital Project Management, Space Management, Reservations Management
 Facility Maintenance and Operations, Environmental and Energy Management, Computer-aided Drafting (CAD)
 Integration

CDC Custom Modules/Tools:

HHS Facility Project Approval Agreement (FPAA), Project Evaluation and Review Technique (PERT), Federal Real Property Council (FRPC) Tracking, Environmental Monitoring System (EMS)

CDC Integration/Interface Tools GSA Rent on the Web Interface CDC OCIO Peoples Interface
 CDC OCIO Financial System Interface

II. Project Objective:

The purpose of this contract is to provide maintenance and support for Information Technology System Services to the Centers for Disease Control and Prevention (CDC) Office of Safety, Security, and Asset Management (OSSAM) for the Integrated Facilities Management System (IFMS). This includes the sustainability of the overall system, its customized modules, and custom integration applications and programs, as well as revising, testing, documenting, operating, and maintaining the Facilities Management Information (FMI) parts of IFMS.

The assigned components of the Government's Integrated Facilities Management System will be maintained and enhanced as necessary to support OSSAM operations, operability, and coordination among various TRIRIGA and non-TRIRIGA software applications.

CDC and end users will be provided with high-quality training and support.

The contractor shall submit a quote that includes professional services and/or hardware materials to meet the requirements outlined in the Scope of the Project.

III. Description of Work:

Task 1 - Application Technical Support & System Admin Support

- 1.1 Support Help Desk. Contractor to provide qualified personnel for daily support for users' system questions and user problems. Provide on-site technical support for all users of the IFMS system at the CDC while also providing telephone support. Create or adjust settings for new and existing user profiles, business objects, workflows, and other tasks directed by the CDC as needed. Provide training to new and existing FTE and contract staff, demonstrating policies and procedures using the IFMS system. Utilize the IFMS Support Ticket system to log and document all service requests. The IFMS Support Ticket system is available 24 hours a day.
- 1.2 Software Maintenance. Maintenance will include, but not limited to, the following:
 - a. Corrective Maintenance - Correct any identified bugs in the system.
 - b. Preventive - Modify the system to maintain both effectiveness and reliability.
 - c. Adaptive - Provide any modifications required to accommodate physical changes in the software environment. These might include adapting to a new network topology, or reconfiguration to accommodate a new release of TRIRIGA, GSA Rent System, OCIO data importing, etc.
 - d. Perfective Maintenance - Add new functions to accommodate changes in the business process requirements.
- 1.3 System Infrastructure. Contractor will perform all operational tasks required to maintain the proper level of performance and integrity of the overall system backbone. IFMS production, staging, development, and disaster recovery environments are hosted in the CDC main and off-site backup data centers. The CDC IT Application Hosting Branch (AHB) provides management of the hardware required for the application. Contractor shall provide coordination with AHB to ensure system availability and performance. In addition, the contractor must continue the updating of the IFMS Application Run Book, which provides AHB step-by-step procedural requirements to maintain the system and perform system shutdown and orderly restarts. Infrastructure support must also include the production of support documentation required to complete the security assessment, certification, and accreditation of IFMS. Security requirements also include deploying and operating the systems in accordance with the security controls documented in the system security plan, and providing requisite security training for system users and support personnel.
- 1.4 CAD Integrator Maintenance and Support. Contractor shall perform all periodic operational tasks required to maintain the proper level of performance and integrity of the TRIRIGA CAD Integrator and the CAD graphic presentations in IFMS. This shall include all coordination and support of the system core application, verification and validation, revision, testing, debugging, and documentation for all system changes to ensure future system availability and performance. Provide IBM CAD Integrator maintenance and support such that all CDC space drawings in IFMS are accessible and present accurate graphics based on the CDC CAD standards.
- 1.5 Report Writing Maintenance and Support. Reports are essential to the CDC operations. IFMS currently has SQL and BIRT Reports in addition to queries and reports configured for CDC in the Reports Manager section of the application. Contractor shall maintain and create

TRIRIGA Queries and Reports, SQL and BIRT Reports as requested by CDC end users with the approval of the COR or CDC Project Manager.

- 1.6 Provide support to maintain the CDC IFMS Environmental Monitoring System (EMS) within IFMS. CDC has some Environmental equipment that sends data to a CDC structured query language (SQL) database that IFMS accesses and imports into the TRIRIGA Equipment Reading Logs and provides Tririga Query Reports of equipment status and readings.
- 1.7 Provide ongoing professional services to configure, maintain, and enhance the IBM TRIRIGA Reservations and Space Management modules within the CDC Integrated Facilities Management System (IFMS). These services shall include sustaining maintenance, operational support, system configuration, and continuous improvement activities required to ensure reliable, effective, and compliant space-management capabilities for CDC. The Contractor shall implement enhancements to the Space Management System to modernize and streamline operational functions, including but not limited to:
 - Agreement and lease tracking
 - Personnel location management
 - Space visualization and reporting
 - Workflow automation supporting space-related business processes

The Contractor shall improve the existing system by designing and deploying a centralized agreement and lease-management capability that supports:

- CDC personnel located in non-CDC Federal facilities
- Non-CDC Federal personnel located in CDC facilities
- Authoritative personnel location tracking across all CDC campuses
- Interactive, accurate digital floor plans meeting CDC CAD standards

The Contractor shall further develop and deliver:

- Enhanced reporting, analytics, and import/export utilities
- Automated notifications and Working Capital Fund (WCF) validation workflows
- Scenario-planning tools to support forecasting, occupancy modeling, and space-optimization activities
- Refined Role-Based Access Control (RBAC) permissions and user views to ensure secure, least-privilege access

The Contractor shall design, configure, test, document, and deploy all enhancements described above. This includes updating system documentation, supporting user acceptance activities, and delivering training for CDC Space Management, OMS, Leasing, and other designated stakeholder groups. All work shall be performed to ensure improvements in data integrity, operational efficiency, audit readiness, and CDC mission support.

- 1.8 In addition, the contractor will be responsible for designing, configuring, testing, and deploying all enhancements. They will update documentation, support user acceptance, and deliver training for Space Team, OMS, and Leasing stakeholders. All these efforts are intended to ensure improved data integrity, operational efficiency, and audit readiness across all space management processes.
- 1.9 Documentation Requirements. Maintain, create, and update the online IFMS User Guide documentation under the IFMS Help action with all changes to IFMS portals and processes. Other documentation required includes the following:

Technical Document – an electronic technical document is required for all new development/modernizations/enhancements (DME). Technical documents are designed to enable system admin staff to configure and troubleshoot the application with the new DME actions and are the first line of reference for local technical staff. The content for technical manuals is specific to the new DME items and must include details

completely defining all aspects of the DME item. The technical document will include release notes that will briefly describe issues fixed and/or new functionality delivered by the DME action. This includes software requisites, any atypical hardware or system requirements, and any additional caveats or warnings.

Help Documentation - In general, online help documentation is derived from text and descriptions developed by the functional project team responsible for developing the DME. The Contractor may be required to contribute text, screenshots, or other content for help documentation. Help files will be incorporated by the Contractor into the software application made accessible via the help action.

Test Checklist and Scripts - Requirements for test checklists and scripts will be specific to the individual project/function. In general, test cases and scenarios for user testing should be provided.

Training Materials - The Contractor will be required to develop electronic training materials designed to assist users in operating, managing, and/or troubleshooting specific IFMS functions. The types of training materials are likely to include, but not be limited to, illustrative screen captures, interactive online demos, and presentation slides (e.g., PowerPoint).

1.10 Training Sessions will include, at a minimum, the following:

- Electronic Training Agenda
- Electronic Daily Sign-In Sheet
- User training record updated in IFMS
- Online access to all training documents via Help action Electronic Training Evaluation Surveys

Key Personnel Requirements

Skilled, experienced professional and/or technical personnel are essential for accomplishing the work to be performed. For the purpose of the overall performance of this contract, the Contractor shall provide the following Key Personnel:

- i. **Project Manager 2** shall serve as a point of contact for the COR and CDC Project Manager (an FTE that is not the same as Project Manager 2) and interface between the government and the contractor employees. The CDC Project Manager will provide centralized administration of all work performed under this contract. OSSAM IT Manager serves as Support Lead.
- ii. **Technical Consultant 3** shall provide primary leadership and expertise to the combined team and other contractor team members in all material matters related to core package design, configuration, and testing, including solution adaptation. The developer must be an experienced Certified TRIRIGA Application Developer with at least 5 years of TRIRIGA development experience.
- iii. **Integration Specialist** shall provide overall solution expertise to the CDC Application Hosting Branch (AHB) and other support team members, particularly related to the critical interoperability of and integration of IFMS, including the CAD Integrator. Tech must be an experienced network and system administrator.
- iv. **Technical Architect 1** shall provide system architectural change support. Must be experienced with IBM Tririga software architecture customization and support.

The Contractor shall not make any personnel changes of Key Personnel unless an individual's sudden illness, death, or termination of employment necessitates such substitutions. In case of these occurrences, the Contractor shall notify the Contracting Officer promptly and submit documentation pertaining to the proposed substitution in writing.

The Contractor must provide a detailed explanation of the circumstances causing the proposed substitution. All resumes submitted for each proposed substitution must have qualifications that are equal to or superior to the qualifications of the person being substituted to perform the work in accordance with this contract.

The Contracting Officer and COR shall evaluate the Resume of each request to verify the qualifications of every proposed Key Personnel substitution of new employees being assigned to this Work Statement.

Task 2 – Application Maintenance, Sustainment, and Support

- 2.1 Kickoff Meeting - A kickoff meeting shall be held no later than 10 workdays after the initial award is made to discuss plans and timelines, as well as clarify roles and responsibilities.
- 2.2 Work Plan - Following the kick off meeting, the contractor shall develop a written work plan, minimally including all essential interim and final deliverables, key staff responsible for tasks (including contractor, CDC or other partners), schedule of key deadlines (including review cycles and absolute No Later Than (NLT) dates for key activities and deliverables) and clarifications or updates specific to each task in greater detail than may have been included in the original quote (for COR review and correction before acceptance). The work plan must contain:
 - 2.2.1 A series of specific reports and activities proposed by the contractor following the kick-off meeting, to be developed by the contractor during the course of the project, inclusive of the contractor's plan for ongoing monitoring and evaluation of services to assure high-quality performance and customer satisfaction.
 - 2.2.2 hours of operation,
 - 2.2.3 Contractor plan for employee management, including how the contractor will avoid any appearances of personal services by the CDC, and
 - 2.2.4 The contractor's plan to maintain services during emergencies, such as government shutdown, building closure, inclement weather, telework, etc., or similar (infrequent) surge efforts for peak room usage for large-scale events.
 - 2.2.5 The work plan should be a distributable document for sharing with key CDC management/staff impacted by this project, as needed. The work plan is due no later than 10 workdays following the kickoff meeting. The work plan (and any schedule of interim deliverables) may be revised according to CDC acceptance of the updated work plan by the COR during the project, with the restriction that these changes must not impact the overall period of performance, scope, or specifications of the award, or otherwise impinge on the authority of the contracting officer. It is the responsibility of the contractor to fully understand what changes require contracting officer approval.
- 2.3 Weekly Conference Call – A weekly conference call with the COR (Contracting Officer's Representative) must be conducted each week. The purpose of the call is to do a weekly online status review of the IFMS Support Tickets. The discussion from the conference call must be documented in the monthly report. All service calls, all requests, all system down times, and all tasks shall be logged in IFMS as an IFMS Support Ticket. The discussion for the weekly call will consist of a review of the log of all services provided, including end-user support calls, software modifications performed, patches provided, and system restarts/unavailability.
- 2.4 Monthly Reporting – Provide a monthly report including updates on the specific reports and deliverables as described in the work plan, expressly broken out. The monthly report shall be considered a substantial deliverable of the project, for review by key OSSAM leadership as well as the project lead and contracting officer representative, and used as 1) a tracking tool for the success of this project and 2) documentation of effort/services as invoiced in the matching monthly invoice. The contractor shall develop the monthly report format for review and approval by the COR. The monthly report is due NLT the 5th calendar day of each month.

Detailed activities of the previous month, identified by Task, to include: Significant accomplishments
Anticipated or actual problems/challenges to the accomplishment of the tasks, Mitigation plans for any cost and schedule variances, Forecast of activities for next month
- 2.5 Quarterly Conference Call – A quarterly conference call with the COR and project lead(s) must be held in the last two weeks of each calendar quarter, initiated and led by the contractor. The purpose of this call is an ongoing review of task performance. The discussion from the conference call must be documented in the following monthly report. Any required performance improvements must be documented/reported in the monthly reports.

IV. Deliverables

Item	Quantity	Delivery Method	Deliver To	Due Date
Monthly Report	12 (per year)	Electronically via E-mail	COR and Contracting Officer	Monthly by the 5th calendar day following the end of the month

All materials will be submitted electronically in MS-compatible format that meets CDC standards and is readily available at CDC (e.g., MS Office (Word, Excel, PowerPoint)) or Adobe Acrobat. All reporting requirements and written deliverables as part of this contract will be supplied to the project Contracting Officer Representative (COR). Acceptance of any written deliverables is pending CDC COR review and correction to any resulting comments, to be confirmed in writing and documented in the following monthly report. Any schedule of interim deliverables may be revised according to CDC acceptance of an updated written work plan by the COR during the project, with the restriction that these changes must not impact the overall period of performance, scope, or specifications of the award, or otherwise impinge on the authority of the contracting officer. It is the responsibility of the contractor to fully understand what changes require contracting officer approval.

V. Period of Performance

The performance period is July 1, 2026, through June 30, 2031

VI. Place of Performance

Up to three contractors can be located at CDC facilities. The Contractors should plan any additional staff to work off-site. The contractor will be required to interconnect their off-site network to the CDC's wide area network for the performance of work under this contract. The Contractor shall have CDC acceptable safeguards, both physical and electronic, in place to protect Government information.

VII. Government Furnished Materials, Facilities, and Property

The Contractor must notify the Contracting Officer on the day an employee terminates employment with the company. This notification is required to ensure that all government-issued equipment and property assigned to the departing employee has been recovered and that access to facilities and computer networks has been terminated. Government-issued equipment and property includes, but is not limited to, keys, office equipment, computer equipment (hardware and software), manuals and books, telecommunications equipment, badges, tools, and safety gear. A notification must be completed for each employee terminating.

In accordance with FAR 52.245-2, 'GOVERNMENT PROPERTY (FIXED-PRICE CONTRACTS) (DEC 1989)' Clause, Section I, the Government will provide the Contractor with the use of Government-owned equipment for use only in connection with this contract. All such equipment will be provided in 'as is' condition, and its use is at the option of the Contractor. The use of Government-furnished property and services for other purposes is prohibited.

- a. Government-Furnished Equipment. The Government may provide the Contractor with the use of existing and available Government-owned equipment as deemed appropriate by the Government.
- b. The Contractor shall provide periodic servicing, maintenance, and repair of the equipment accepted for use. Servicing, maintenance, and repair shall be provided in accordance with the manufacturer's recommendations, and records of all work performed shall be maintained and made available to the Contracting Officer upon request.

- c. The total or partial breakdown or failure of the Government-furnished equipment shall not relieve the Contractor of responsibility to fully perform the work of the contract. Upon completion or termination of the contract, all Government-owned equipment shall be returned to the Government in the same condition as received, except for normal wear and tear. Equipment that becomes worn out due to normal wear and tear shall be returned to the Government, and its replacement shall be the responsibility of the Contractor at no additional cost to the Government. The Contractor shall be responsible for the cost of any repairs or replacement caused by negligence or abuse.
- d. The Contractor and the Contracting Officer shall conduct a joint inventory before commencing work under this contract to determine the exact number and serviceability of Government-furnished equipment. The Contractor shall then certify the findings of this inventory, assume accounting responsibility, and subsequently report inventory discrepancies to the Contracting Officer. Government-furnished equipment shall not be removed from the facility unless approved by the Contracting Officer in writing.

VIII. Transition

Transition-In

If needed, the contractor shall provide and implement a transition-in plan that takes into account all aspects of ensuring a seamless transition, without interruption in service, loss of production, or drop in quality level.
Contract Completion Transition

Transition-Out - In the event a different Contractor wins the successor competition or the Government in-sources these services, the winner of this competition shall deliver and implement a Transition-Out Plan which implements transition from the winner of this competition to the successor Contractor or to the Government to include any knowledge transfer, training, and transfer of digital media tools/software/aids which were developed for the contract. Requirements for the Transition-Out Plan shall include a plan and implementation of the plan to ensure continued project delivery and quality assurance without a break in service or productivity level.

IX. 508 AND ACCESSIBILITY REQUIREMENTS

Part A – Provision

Reference HHSAR 352.239-73[8] Electronic Information and [Communication] Technology Accessibility Notice. [(Deviation)]

(a) Any offeror responding to this solicitation must comply with established HHS Information and Communication Technology (ICT) accessibility standards. Information about Section 508 is available at <https://www.hhs.gov/web/section-508/index.html>.

(b) The Section 508 accessibility standards applicable to this solicitation are stated in the clause at 352.239-79 Information and Communication Technology Accessibility. In order to facilitate the Government's determination whether proposed ICT supplies, products, platforms, information, and documentation meet applicable Section 508 accessibility standards, offerors must submit an appropriate HHS Section 508 Accessibility Conformance Checklist (see <https://www.hhs.gov/web/section-508/accessibility-checklists/index.html>) or an Accessibility Conformance Report (ACR) (based on the Voluntary Product Accessibility Template (VPAT) see <https://www.itic.org/policy/accessibility/vpat>), in accordance with the completion instructions. The purpose of the checklists and conformance reports are to assist HHS acquisition and program officials in determining whether proposed ICT supplies, products, platforms, information, and documentation conform to applicable Section 508 accessibility standards. Checklists and ACRs evaluate—in detail—whether the ICT conforms to specific Section 508 accessibility standards and identifies remediation efforts needed to address conformance issues.

(c) If an offer or claims its supplies or services meet applicable Section 508 accessibility standards, and it is later determined by the Government, *i.e.*, after award of a contract or order, that supplies, products, platforms, information, documentation, or services support delivered do not conform to the described accessibility standards,

remediation of the supplies, products, platforms, information, documentation, or services support to the level of conformance specified in the contract will be the responsibility of the Contractor at its expense.

(d) In order to facilitate the Government's determination whether proposed ICT supplies meet applicable Section 508 accessibility standards, offerors must submit an Accessibility Conformance Report, in accordance with its completion instructions and tailored to the requirements in the solicitation. The purpose of the Report is to assist HHS acquisition and program officials in determining whether proposed ICT supplies conform to applicable Section 508 accessibility standards. The template allows offerors or developers to self-evaluate their supplies and document, in detail, whether they conform to a specific Section 508 accessibility standard, and any underway remediation efforts addressing conformance issues. Instructions for preparing the Template are available at <https://www.section508.gov/>.

(e) Additionally, offerors must provide enough information to assist the Government in determining that the ICT services conform to Section 508 accessibility standards, including any underway remediation efforts addressing conformance issues.

(f) Respondents to this solicitation must identify any inability to conform to Section 508 requirements. If an offeror claims its supplies or services meet applicable Section 508 accessibility standards, and it is later determined by the Government, i.e., after award of a contract or order, that supplies or services delivered do not conform to the described accessibility standards, remediation of the supplies or services to the level of conformance specified in the contract will be the responsibility of the Contractor at its expense.

(g) Items delivered as electronic content must be accessible to HHS acceptance criteria. Checklist for various formats are available at <http://508.hhs.gov/>. Materials, other than items incidental to contract management, that are final items for delivery should be accompanied by the appropriate checklist, except upon approval of the Contracting Officer or Contracting Officer's Representative.
(End of provision)]

Part B - Clause

352.239-74[9] Electronic, Information, and Communication Technology Accessibility.

[(Deviation)]

(a) Pursuant to Section 508 of the Rehabilitation Act of 1973 (29 U.S.C. 794d), as amended by the Workforce Investment Act of 1998, all information and communication technology (ICT) supplies, products, platforms, information, documentation, and services, or support developed, acquired, maintained or delivered under this contract or order must comply with the Revised 508 Standards, which are located at 36 C.F.R. 1194.1 and Appendices A, B, and C, and are available at <https://www.access-board.gov/ict/>. Information about Section 508 is available at <https://www.hhs.gov/web/section-508/index.html>.

(b) Additional Section 508 accessibility standards applicable to this contract or order are identified as follows:

205 WCAG 2.0 Level A & AA Success Criteria

302 Functional Performance Criteria

502 Inoperability with Assistive Technology

503 Applications

504 Authoring Tools

602 Support Documentation

603 Support Services

If it is determined by the Government that ICT supplies, products, platforms, information, documentation, and services support provided by the Contractor do not conform to the described accessibility standards in the contract, remediation of the supplies, products, platforms, information, documentation, or services support to the level of conformance specified in the contract will be the responsibility of the Contractor at its own expense.

(c) In the event of a modification(s) to this contract or order, which adds new ICT supplies or services or revises the type of, or specifications for, supplies, products, platforms, information, documentation, or services support, the Contracting Officer shall require that the Contractor submit a completed HHS Section 508 Accessibility Conformance Checklist (see <https://www.hhs.gov/web/section-508/accessibility-checklists/index.html>) or an Accessibility Conformance Report (ACR) (based on the Voluntary Product Accessibility Template (VPAT) see

<https://www.itic.org/policy/accessibility/vpat>), and any other additional information necessary to assist the Government in determining that the ICT supplies or services conform to Section 508 accessibility standards. If it is determined by the Government that ICT supplies, products, platforms, information, documentation, and services support provided by the Contractor do not conform to the described accessibility standards in the contract, remediation of the supplies, products, platforms, information, documentation, or services support to the level of conformance specified in the contract will be the responsibility of the Contractor at its own expense.

(d) If this is an Indefinite-Delivery type contract, a Blanket Purchase Agreement or a Basic Ordering Agreement, the task/delivery order requests that include ICT supplies, products, platforms, information, documentation, or services support will define the specifications and accessibility standards for the order. In those cases, the Contractor shall be required to provide a completed HHS Section 508 Accessibility Conformance Checklist (see <https://www.hhs.gov/web/section-508/accessibility-checklists/index.html>) or an ACR (based on the VPAT see <https://www.itic.org/policy/accessibility/vpat>), and any other additional information necessary to assist the Government in determining that the ICT supplies, products, platforms, information, documentation, or services support conform to Section 508 accessibility standards. If it is determined by the Government that ICT supplies and services provided by the Contractor do not conform to the described accessibility standards in the provided documentation, remediation of the supplies, products, platforms, information, documentation, or services support to the level of conformance specified in the contract will be the responsibility of the Contractor at its own expense.

(e) The contractor shall identify to the Contracting Officer any perceived exception or exemption to Section 508 requirements for review by the agency Section 508 Program.

(End of clause)

In addition to the FSS Schedule clauses, the following clauses and provisions are applicable:

CDC0_G008 Contracting Officer's Representative (COR) (Jul 2017)

Performance of the work hereunder shall be subject to the technical directions of the designated COR for this contract.

As used herein, technical directions are directions to the Contractor which fill in details, suggests possible lines of inquiry, or otherwise completes the general scope of work set forth herein. These technical directions must be within the general scope of work, and may not alter the scope of work or cause changes of such a nature as to justify an adjustment in the stated contract price/cost, or any stated limitation thereof.

In the event that the Contractor believes full implementation of any of these directions may exceed the scope of the contract, he or she shall notify the originator of the technical direction and the Contracting Officer, immediately or as soon as possible, in a letter or e-mail separate of any required report(s). No technical direction, nor its fulfillment, shall alter or abrogate the rights and obligations fixed in this contract.

The Government COR is not authorized to change any of the terms and conditions of this contract. Contract changes shall be made only by the Contracting Officer by properly written modification(s) to the contract.

The Government will provide the Contractor with a copy of the COR delegation memorandum upon request.

CDC0_G009 Contracting Officer (Jul 1999)

(a) The Contracting Officer is the only individual who can legally commit the Government to the expenditure of public funds. No person other than the Contracting Officer can make any changes to the terms, conditions, general provisions, or other stipulations of this contract.

(b) No information, other than that which may be contained in an authorized modification to this contract, duly issued by the Contracting Officer, which may be received from any person employed by the United States Government, or otherwise, shall be considered grounds for deviation from any stipulation of this contract.

CDC0_G018 Payment by Electronic Funds Transfer (Feb 2018)

(a) The Government shall use electronic funds transfer to the maximum extent possible when making payments under this contract. FAR 52.232-33, Payment by Electronic Funds Transfer –System for Award Management, in Section I, requires the contractor to designate in writing a financial institution for receipt of electronic funds transfer payments.

(b) In the case that EFT information is not within the System of Award Management, FAR 52.232-34 requires mandatory submission of Contractor's EFT information directly to the office designated in this contract to receive that information (hereafter: "designated office"); see below. The contractor shall submit the EFT information within the form titled "ACH Vendor/Miscellaneous Payment Enrollment Form" to the address indicated below. Note: The form is either attached to this contract (see Section J, List of Attachments) or may be obtained by contacting the Contracting Officer or the CDC Office of Financial Resources at 678-475-4510.

(c) In cases where the contractor has previously provided such information, i.e., pursuant to a prior contract/order, and been enrolled in the program, the form is not required unless the designated financial institution has changed.

(d) The completed form shall be mailed after award, but no later than 14 calendar days before an invoice is submitted, to the following address:

The Centers for Disease Control and Prevention Office of Financial Resources (OFR)

P.O. Box 15580 Atlanta, GA 30333

Or – Fax copy to: 404-638-5342

CDCA_H042 Records Management Obligations (Jun 2020)

A. Applicability

The following applies to all Contractors whose employees create, work with, or otherwise handle Federal records, as defined in Section B, regardless of the medium in which the record exists.

B. Definitions

“Federal record” as defined in 44 U.S.C. § 3301, includes all recorded information, regardless of form or characteristics, made or received by a Federal agency under Federal law or in connection with the transaction of public business and preserved or appropriate for preservation by that agency or its legitimate successor as evidence of the organization, functions, policies, decisions, procedures, operations, or other activities of the United States Government or because of the informational value of data in them.

The term Federal record:

1. includes Centers for Disease Control and Prevention (CDC) records.
2. does not include personal materials.
3. applies to records created, received, or maintained by Contractors pursuant to their CDC contract.
4. may include deliverables and documentation associated with deliverables.

C. Requirements

1. Contractor shall comply with all applicable records management laws and regulations, as well as National Archives and Records Administration (NARA) records policies, including but not limited to the Federal Records Act (44 U.S.C. chs. 21, 29, 31, 33), NARA regulations at 36 CFR Chapter XII Subchapter B, and those policies associated with the safeguarding of records covered by the Privacy Act of 1974 (5 U.S.C. 552a). These policies include the preservation of all records, regardless of form or characteristics, mode of transmission, or state of completion.
2. In accordance with 36 CFR 1222.32, all data created for Government use and delivered to, or falling under the legal control of, the Government are Federal records subject to the provisions of 44 U.S.C. chapters 21, 29, 31, and 33, the Freedom of Information Act (FOIA) (5 U.S.C. 552), as amended, and the Privacy Act of 1974 (5 U.S.C. 552a), as amended and must be managed and scheduled for disposition only as permitted by statute or regulation.
3. In accordance with 36 CFR 1222.32, Contractor shall maintain all records created for Government use or created in the course of performing the contract and/or delivered to, or under the legal control of the Government and must be managed in accordance with Federal law. Electronic records and associated metadata must be accompanied by sufficient technical documentation to permit understanding and use of the records and data.
4. CDC and its contractors are responsible for preventing the alienation or unauthorized destruction of records, including all forms of mutilation. Records may not be removed from the legal custody of CDC or destroyed except for in accordance with the provisions of the agency records schedules and with the written concurrence of the Head of the Contracting Activity. Willful and unlawful destruction, damage or alienation of Federal records is subject to the fines and penalties imposed by 18 U.S.C. 2701. In the event of any unlawful or accidental removal, defacing, alteration, or destruction of records, Contractor must report to the Contracting Officer and the Contracting Officer's Representative. The agency must report promptly to NARA in accordance with 36 CFR 1230.
5. The Contractor shall immediately notify the appropriate Contracting Officer upon discovery of any inadvertent or unauthorized disclosures of information, data, documentary materials, records or equipment. Disclosure of non-public information is limited to authorized personnel with a need-to-know as described in the contract. The Contractor shall ensure that the appropriate personnel, administrative, technical, and physical safeguards are established to ensure the security and confidentiality of this information, data, documentary material, records and/or equipment is properly protected. The Contractor shall not remove material from Government facilities or systems, or facilities or systems operated or maintained on the Government's behalf, without the express written permission of

the Head of the Contracting Activity. When information, data, documentary material, records and/or equipment is no longer required, it shall be returned to CDC control or the Contractor must hold it until otherwise directed. Items returned to the Government shall be hand carried, mailed, emailed, or securely electronically transmitted to the Contracting Officer or address prescribed in the contract. Destruction of records is EXPRESSLY PROHIBITED unless in accordance with Paragraph (4).

6. The Contractor is required to obtain the Contracting Officer's approval prior to engaging in any contractual relationship (sub-contractor) in support of this contract requiring the disclosure of information, documentary material and/or records generated under, or relating to, contracts. The Contractor (and any sub-contractor) is required to abide by Government and CDC guidance for protecting sensitive, proprietary information, classified, and controlled unclassified information.

7. The Contractor shall only use Government IT equipment for purposes specifically tied to or authorized by the contract and in accordance with CDC policy.

8. The Contractor shall not create or maintain any records containing any non-public CDC information that are not specifically tied to or authorized by the contract.

9. The Contractor shall not retain, use, sell, or disseminate copies of any deliverable that contains information covered by the Privacy Act of 1974 or that which is generally protected from public disclosure by an exemption to the Freedom of Information Act.

10. Training. All Contractor employees assigned to this contract who create, work with, or otherwise handle records are required to take CDC-provided records management training. The Contractor is responsible for confirming training has been completed according to agency policies, including initial training and any annual or refresher training.

D. Flowdown of requirements to subcontractors

1. The Contractor shall incorporate the entire substance of the terms and conditions herein, including this paragraph, in all subcontracts under this contract, and must require written subcontractor acknowledgment of same.

2. Violation by a subcontractor of any provision set forth herein will be attributed to the Contractor.

CDCH.16 Non-Disclosure Agreement for Contractor and Contractor Employees (Jun 2020)

(a) The contractor and contractor employees shall prepare and submit Non-Disclosure Agreements (NDA) to the Contracting Officer prior to access of government information or the commencement of work at CDC.

(b) The NDAs, at Exhibit I and II, are required in service contracts where contractor's employees will have access to non-public and procurement-sensitive information while performing functions in support of the Government. The NDA also requires contractor's employees properly identify themselves as employees of a contractor when communicating or interacting with CDC employees, employees of other governmental entities, and members of the public (when communication or interaction relates to the contractor's work with the CDC). The Federal Acquisition Regulation (FAR) 37.114 (c), states "All contractor personnel attending meetings, answering Government telephones, and working in other situations where their contractor status is not obvious to third parties are required to identify themselves as such to avoid creating an impression in the minds of members of the public or Congress that they are Government officials, unless, in the judgment of the agency, no harm can come from failing to identify themselves. They must also ensure that all documents or reports produced by contractors are suitably marked as contractor products or that contractor participation is appropriately disclosed."

(c) The contractor shall inform contractor employees of the identification requirements by which they must abide and monitor employee compliance with the identification requirements.

(d) During the contract performance period, the contractor is responsible to ensure that all additional or replacement contractors' employees sign an NDA and it is submitted to the Contracting Officer prior to commencement of their work with the CDC.

(e) Contractor employees in designated positions or functions that have not signed the appropriate NDA shall not have access to any non-public, procurement sensitive information or participate in government meetings where sensitive information may be discussed.

(f) The Contractor shall prepare and maintain a current list of employees working under NDAs and submit to the Contracting Officer upon request during the contract period of performance. The list should at a minimum include: contract number, employee's name, position, date of hire and NDA requirement.

EXHIBIT I
Centers for Disease Control and Prevention (CDC)
Contractor Non-Disclosure Agreement

I. Non-public Information

[Name of contractor] understands that in order to fulfill the responsibilities pursuant to [contract name and number] between the Centers for Disease Control and Prevention and [Name of CDC contractor] dated [date], employees of [contractor] will have access to non-public information, including confidential and privileged information contained in government-owned information technology systems. For purposes of this agreement, confidential information means government information that is not or will not be generally available to the public. Privileged information means information which cannot be disclosed without the prior written consent of the CDC. In order to properly safeguard non-public information, [contractor] agrees to ensure that prior to being granted access to government information or the commencement of work for the CDC, whichever is applicable, all contractor employees will sign a Non-Disclosure Agreement (NDA) provided by the CDC prior to beginning work for the CDC. Contractor agrees to submit to the Contracting Officer the original signed copies of NDAs signed by the contractor's employees in accordance with the instructions provided by the Contracting Officer. Failure to provide signed NDAs in accordance with this agreement and instructions provided by the Contracting Officer could delay or prevent the employee from commencing or continuing work at the CDC until such agreement is signed and returned to the Contracting Officer.

Contractor further agrees that it will not cause or encourage any employee to disclose, publish, divulge, release, or make known in any manner or to any extent, to any individual other than an authorized Government employee any non-public information that the employee may obtain in connection with the performance of the employee's responsibilities to the CDC.

II. Procurement-Sensitive Information

Contractor further agrees that it will not cause or encourage any employee to disclose, publish, divulge, release, or make known in any manner or to any extent, to any individual, other than an authorized Government employee, any procurement-sensitive information gained while in connection with fulfilling the employee's responsibilities at the CDC. For purposes of this agreement, procurement-sensitive information includes, but is not limited to, all information in Statements of Work (SOW), Procurement Requests (PR), and Requests for Proposal (RFP); Responses to RFPs, including proposals, questions from potential offerors; non-public information regarding procurements; all documents, conversations, discussions, data, correspondence, electronic mail (e-mail), presentations, or any other written or verbal communications relating to, concerning, or affecting proposed or pending solicitations or awards; procurement data; contract information plans; strategies; source selection information and documentation; offerors' identities; technical and cost data; the identity of government personnel involved in the solicitation; the schedule of key technical and procurement events in the award determination process; and any other information that may provide an unfair competitive advantage to a contractor or potential contractor if improperly disclosed to them, or any of their employees.

Contractor understands and agrees that employee access to any procurement-sensitive information may create a conflict of interest which will preclude contractor from becoming a competitor for any acquisition(s) resulting from this information. Therefore, if an employee participates in any discussions relating to procurement-sensitive information, assists in developing any procurement-sensitive information, or otherwise obtains any procurement-sensitive information while performing duties at the CDC, contractor understands and agrees that contractor may be excluded from competing for any acquisition(s) resulting from this information.

III. Identification of Non-Government Employees

Contractor understands that its employees are not agents of the Government. Therefore, unless otherwise directed in writing by the CDC, contractor agrees to assist and monitor employee compliance with the following identification procedures:

A. At the beginning of interactions with CDC employees, employees of other governmental entities, and members of the public (when such communication or interaction relates to the contractor's work with the CDC), contractors' employees will identify themselves as an employee of a contractor.

B. Contractors' employees will include the following disclosures in all written communications, including outgoing electronic mail (e-mail) messages, in connection with contractual duties to the CDC:

Employee's name

Name of contractor

Center or office affiliation

Centers for Disease Control and Prevention

C. At the beginning of telephone conversations or conference calls, contractors' employees will identify themselves as an employee of a contractor.

D. Contractors' employees should not wear any CDC logo on clothing, except for a CDC issued security badge while carrying out work for CDC or on CDC premises. The only other exception is when a CDC management official has granted permission to use the CDC logo.

E. Contractors' employees will program CDC voice mail message to identify themselves as an employee of a contractor.

I understand that federal laws including, 18 U.S.C. 641 and 18 U.S.C. 2071, provide criminal penalties for, among other things, unlawfully removing, destroying or converting to personal use, or use of another, any public records. Contractor acknowledges that contractor has read and fully understands this agreement.

Name of contractor: _____

Signature of Authorized Representative of Contractor: _____

Copies retained by: Contracting Officer and contractor

EXHIBIT II
Centers for Disease Control and Prevention (CDC)
Contractors' Employee Non-Disclosure Agreement

I. Non-Public Information

I understand that in order to fulfill my responsibilities as an employee of [Name of CDC contractor], I will have access to non-public information, including confidential and privileged information contained in government-owned information technology systems. For purposes of this agreement, confidential information means government information that is not or will not be generally available to the public. Privileged information means information which cannot be disclosed without the prior written consent of the CDC.

I, [Name of Employee], agree to use non-public information only in performance of my responsibilities to the CDC. I agree further that I will not disclose, publish, divulge, release, or make known in any manner or to any extent, to any individual other than an authorized Government employee, any non-public information that I may obtain in connection with the performance of my responsibilities to the CDC.

II. Procurement-Sensitive Information

I further agree that unless I have prior written permission from the CDC, I will not disclose, publish, divulge, release, or make known in any manner or to any extent, to any individual other than an authorized Government employee, any procurement-sensitive information gained in connection with the performance of my responsibilities to the CDC. I specifically agree not to disclose any non-public, procurement-sensitive information to employees of my company or any other organization unless so authorized in writing by the CDC. For purposes of this agreement, procurement-sensitive information includes, but is not limited to, all information in Statements of Work (SOW), Procurement Requests (PR), and Requests for Proposal (RFP); Responses to RFPs, including proposals, questions from potential offerors; non-public information regarding procurements; all documents, conversations, discussions, data, correspondence, electronic mail (e-mail), presentations, or any other written or verbal communications relating to, concerning, or affecting proposed or pending solicitations or awards; procurement data; contract information plans; strategies; source selection information and documentation; offerors' identities; technical and cost data; the identity of government personnel involved in the acquisition; the schedule of key technical and procurement events in the award determination process; and any other information that may provide an unfair competitive advantage to a contractor or potential contractor if improperly disclosed to them, or any of their employees.

I understand and agree that my access to any procurement-sensitive information may create a conflict of interest which will preclude me, my current employer, or a future employer from becoming a competitor for any resulting government acquisition derived from this information. Therefore, if I participate in any discussions relating to procurement-sensitive information, assist in developing any procurement-sensitive information, or otherwise obtain any procurement-sensitive information while performing my duties at the CDC, I understand and agree that I, my current employer, and any future employer(s) may be excluded from competing for any resulting acquisitions.

III. Special Non-Disclosure Agreement for Contractors with Access to CDC Grants Management and Procurement-Related Information Technology Systems

In addition to complying with the non-disclosure requirements and safeguards stated above, I understand that my authorization to use CDC's grants management and procurement systems is strictly limited to the access and functions necessary for the performance of my responsibilities to the CDC and which have been approved in advance by the CDC. I understand that I am not authorized to enter procurement requests for any requirements pertaining to contracts or subcontracts held by me or my employer.

IV. Identification as a Non-Government Employee

I understand that as an employee of a government contractor, I represent an independent organization and I am not an agent of the Government. Therefore, I agree that unless I have prior written authorization from the CDC, I will, at the beginning of interactions with CDC employees, employees of other governmental entities, members of the public (when such communication or interaction relates to the contractor's work with the CDC), identify myself as an employee of a contractor. I further agree to use the following identification procedures in connection with my work at the CDC:

A. I will include the following disclosures in all written communications, including outgoing electronic mail (e-mail) messages:

Employee's name

Name of contractor

Center or office affiliation

Centers for Disease Control and Prevention

B. I will identify myself as an employee of a contractor at the beginning of telephone conversations or conference calls;

C. I will not wear any CDC logo on clothing, except for a CDC issued security badge while carrying out work for CDC or on CDC premises; the only other exception is when a CDC management official has granted permission to use the CDC logo.

D. I will program my CDC voice mail message to identify myself as a contractors' employee.

I understand that federal laws including, 18 U.S.C. 641 and 18 U.S.C. 2071, provide criminal penalties for, among other things, unlawfully removing, destroying or converting to personal use, or use of another, any public records. I acknowledge that I have read and fully understand this agreement.

Name of contractor: _____

Name of Employee: _____

CDCH.20 Non-Personal Services (Jun 2020)

(a) Personal services shall not be performed under this contract. Although the Government may provide sporadic or occasional instructions within the scope of the contract, the Contractor is responsible for control and supervision of its employees. If the Contractor (including its employees) believes any Government action or communication has been given that would create a personal services relationship between the Government and any Contractor employee, the Contractor shall promptly notify the Contracting Officer of this communication or action.

(b) The contractor shall comply with, and ensure their employees and subcontractors comply with, CDC Policy titled "Contractor Identification and Safeguarding of Non-Public Information". No Contractor employee shall hold him or herself out to be a Government employee, agent, or representative. No Contractor employee shall state orally or in writing at any time that he or she is acting on behalf of the Government. In all communications with third parties in connection with this contract, Contractor employees shall identify themselves as Contractor employees and specify the name of the company for which they work. The contractor is limited to performing the services identified in the contract statement of work and shall not interpret any communication with anyone as a permissible change in contract scope or as authorization to perform work not described in the contract. All contract changes will be incorporated by a modification signed by the Contracting Officer.

(c) The Contractor shall ensure that all of its employees and subcontractor employees working on this contract are informed of the terms and conditions herein. The Contractor agrees that this is a non-personal services contract; and that for all the purposes of the contract, the Contractor is not, nor shall it hold itself out to be an agent or partner of, or joint venture with, the Government. The Contractor shall notify its employees that they shall neither supervise nor accept supervision from Government employees. The substance of the terms herein shall be included in all subcontracts at any tier.

(d) The terms and conditions above do not limit the Government's rights under other terms of the contract, including those related to the Government's right to inspect and accept or reject the services performed under this contract.

CDCH.23 Evaluation of Contractor Performance Utilizing CPARS (Apr 2026)

In accordance with FAR 42.11, the In accordance with FAR 42.11, Centers for Disease Control and Prevention (CDC) will review and evaluate contract performance. FAR 42.802 and 42.1102 requires agencies to prepare evaluations of contractor performance and submit them to the Contractor Performance Assessment Reporting System (CPARS). CDC utilizes this web-based system to prepare and report contractor performance evaluations. All information contained in these assessments may be used by the Government, within the limitations of FAR 42.11, for future source selections in accordance with FAR 15.104 where past performance is an evaluation factor.

The CPARS system requires a contractor representative to be assigned so that the contractor has appropriate input into the performance evaluation process. The CPARS contractor representative will be given access to CPARS and will be given the opportunity to concur or not-concur with performance evaluations before the evaluations are complete. The CPARS contractor representative will also have the opportunity to add comments to performance evaluations.

The assessment is not subject to the Disputes clause of the contract, nor is it subject to appeal beyond the review and comment procedures described in the guides on the CPARS website. Refer to: www.cpars.gov for details and additional information related to CPARS, CPARS user access, how contract performance assessments are conducted, and how contractors participate. Access and training for all persons responsible for the preparation and review of performance assessments is also available at the CPARS website.

The contractor must provide the CDC contracting office with the name, e-mail address, and phone number of their designated CPARS representative who will be responsible for logging into CPARS and reviewing and commenting on performance evaluations. The contractor must maintain a current representative to serve as the contractor representative in CPARS. It is the contractor's responsibility to notify the CDC contracting office, in writing (letter or email), when their CPARS representative information needs to be changed or updated. Failure to maintain

current CPARS contractor representative information will result in the loss of an opportunity to review and comment on performance evaluations.

CDCL.09 Contractor Performance Assessment Reporting System (CPARS) Requirements (Jan 2026)

In accordance with FAR 42.11, Centers for Disease Control and Prevention (CDC) will review and evaluate contract performance. FAR 42.1101 and 42.1102 requires agencies to prepare evaluations of contractor performance and submit them to the Contractor Performance Assessment Reporting System (CPARS). CDC utilizes this web-based system to prepare and report contractor performance evaluations. All information contained in these assessments may be used by the Government, within the limitations of FAR 42.11, for future source selections in accordance with FAR 15.104 where past performance is an evaluation factor.

The CPARS system requires a contractor representative to be assigned so that the contractor has appropriate input into the performance evaluation process. The CPARS contractor representative will be given access to CPARS and will be given the opportunity to concur or not-concur with performance evaluations before the evaluations are complete. The CPARS contractor representative will also have the opportunity to add comments to performance evaluations.

The assessment is not subject to the Disputes clause of the contract, nor is it subject to appeal beyond the review and comment procedures described in the guides on the CPARS website. Refer to: www.cpars.gov for details and additional information related to CPARS, CPARS user access, how contract performance assessments are conducted, and how contractors participate. Access and training for all persons responsible for the preparation and review of performance assessments is also available at the CPARS website.

The contractor must provide the CDC contracting office with the name, e-mail address, and phone number of their designated CPARS representative who will be responsible for logging into CPARS and reviewing and commenting on performance evaluations. The contractor must maintain a current representative to serve as the contractor representative in CPARS. It is the contractor's responsibility to notify the CDC contracting office, in writing (letter or email), when their CPARS representative information needs to be changed or updated. Failure to maintain current CPARS contractor representative information will result in the loss of an opportunity to review and comment on performance evaluations.

FAR 52.217-8 Option to Extend Services (Nov 1999)

The Government may require continued performance of any services within the limits and at the rates specified in the contract. These rates may be adjusted only as a result of revisions to prevailing labor rates provided by the Secretary of Labor. The option provision may be exercised more than once, but the total extension of performance hereunder shall not exceed 6 months. The Contracting Officer may exercise the option by written notice to the Contractor within *30 days*.

(End of clause)

(End of clause)

52.217-9 Option to Extend the Term of the Contract (Mar 2000)

- (a) The Government may extend the term of this contract by written notice to the Contractor within *60 days*; provided that the Government gives the Contractor a preliminary written notice of its intent to extend at least *30 days* before the contract expires. The preliminary notice does not commit the Government to an extension.
- (b) If the Government exercises this option, the extended contract shall be considered to include this option clause.
- (c) The total duration of this contract, including the exercise of any options under this clause, shall not exceed *60 months*.

(End of clause)

HHSAR 352.203-70 Anti-Lobbying (Dec 2015)

Pursuant to the HHS annual appropriations acts, except for normal and recognized executive-legislative relationships, the Contractor shall not use any HHS contract funds for:

- (a) Publicity or propaganda purposes;
- (b) The preparation, distribution, or use of any kit, pamphlet, booklet, publication, electronic communication, radio, television, or video presentation designed to support or defeat the enactment of legislation before the Congress or any State or local legislature or legislative body, except in presentation to the Congress or any state or local

legislature itself; or designed to support or defeat any proposed or pending regulation, administrative action, or order issued by the executive branch of any state or local government, except in presentation to the executive branch of any state or local government itself; or

(c) Payment of salary or expenses of the Contractor, or any agent acting for the Contractor, related to any activity designed to influence the enactment of legislation, appropriations, regulation, administrative action, or Executive order proposed or pending before the Congress or any state government, state legislature or local legislature or legislative body, other than for normal and recognized executive-legislative relationships or participation by an agency or officer of a state, local, or tribal government in policymaking and administrative processes within the executive branch of that government.

(d) The prohibitions in subsections (a), (b), and (c) above shall include any activity to advocate or promote any proposed, pending, or future federal, state, or local tax increase, or any proposed, pending, or future requirement for, or restriction on, any legal consumer product, including its sale or marketing, including, but not limited to, the advocacy or promotion of gun control.

(End of clause)

HHSAR 352.227-70 Publications and Publicity (Dec 2015)

(a) Unless otherwise specified in this contract, the Contractor may publish the results of its work under this contract. The Contractor shall promptly send a copy of each article submitted for publication to the Contracting Officer's Representative. The Contractor shall also inform the Contracting Officer's Representative when the article or other publication is published, and furnish a copy of it as finally published.

(b) Unless authorized in writing by the Contracting Officer, the Contractor shall not display the HHS logo including Operating Division or Staff Division logos on any publications.

(c) The Contractor shall not reference the product(s) or service(s) awarded under this contract in commercial advertising, as defined in [FAR 31.205-1](#), in any manner which states or implies HHS approval or endorsement of the product(s) or service(s) provided.

(d) The contractor shall include this clause, including this section (d) in all subcontracts where the subcontractor may propose publishing the results of its work under the subcontract.

(End of clause)

HHSAR 352.232-71 Electronic Submission of Payment Requests (Feb 2022)

(a) *Definitions.* As used in this clause—

(1) “*Payment request*” means a bill, voucher, invoice, or request for contract financing payment with associated supporting documentation. The payment request must comply with the requirements identified in FAR 32.905(b), “Content of Invoices” and the applicable Payment clause included in this contract.

(b) Except as provided in paragraph (c) of this clause, the Contractor shall submit payment requests electronically using the Department of Treasury Invoice Processing Platform (IPP) or successor system. Information regarding IPP, including IPP Customer Support contact information, is available at www.ipp.gov or any successor site.

(c) The Contractor may submit payment requests using other than IPP only when the Contracting Officer authorizes alternate procedures in writing in accordance with HHS procedures.

(d) If alternate payment procedures are authorized, the Contractor shall include a copy of the Contracting Officer's written authorization with each payment request.

(End of Clause)

HHSAR 352.237-75 Key Personnel (DEC 2015)

The key personnel specified in this contract are considered to be essential to work performance. At least 30 days prior to the contractor voluntarily diverting any of the specified individuals to other programs or contracts the Contractor shall notify the Contracting Officer and shall submit a justification for the diversion or replacement and a request to replace the individual. The request must identify the proposed replacement and provide an explanation of how the replacement's skills, experience, and credentials meet or exceed the requirements of the contract (including,

when applicable, Human Subjects Testing requirements). If the employee of the contractor is terminated for cause or separates from the contractor voluntarily with less than thirty days notice, the Contractor shall provide the maximum notice practicable under the circumstances. The Contractor shall not divert, replace, or announce any such change to key personnel without the written consent of the Contracting Officer. The contract will be modified to add or delete key personnel as necessary to reflect the agreement of the parties.

(End of clause)

CDCH_04 Key Personnel (Jan 2026)

The key personnel cited below are considered essential to the work performed under the contract. Pursuant to the terms of HHSAR Clause 352.237-75, Key Personnel, the Contractor shall not replace or divert any of these individuals without the written consent of the Contracting Officer.

Personnel	Title
	Project Manager
	Technical Architect
	Integration Specialist
	Technical Consultant

FAR 52.240-90 Security Prohibitions and Exclusions Representations and Certifications (NOV 2025)

As prescribed in 40.205(a), insert the following provision:

Security Prohibitions and Exclusions Representations and Certifications (NOV 2025)

(a) *Definitions.* As used in this provision—

Backhaul, covered article, covered telecommunications equipment or services, critical technology, FASCSA order, Intelligence community, interconnection arrangements, national security system, roaming, sensitive compartmented information, sensitive compartmented information system, source, and substantial or essential component have the meanings provided in the clause 52.240-91, Security Prohibitions and Exclusions.

Business operations means engaging in commerce in any form, including by acquiring, developing, maintaining, owning, selling, possessing, leasing, or operating equipment, facilities, personnel, products, services, personal property, real property, or any other apparatus of business or commerce.

Marginalized populations of Sudan means—

- (1) Adversely affected groups in regions authorized to receive assistance under section 8(c) of the Darfur Peace and Accountability Act (Pub. L. 109-344) (50 U.S.C. 1701 note); and
- (2) Marginalized areas in Northern Sudan described in section 4(9) of such Act.

Restricted business operations means business operations in Sudan that include power production activities, mineral extraction activities, oil-related activities, or the production of military equipment, as those terms are defined in the Sudan Accountability and Divestment Act of 2007 (Pub. L. 110-174). Restricted business operations do not include business operations that the person (as that term is defined in Section 2 of the Sudan Accountability and Divestment Act of 2007) conducting the business can demonstrate—

- (1) Are conducted under contract directly and exclusively with the regional government of southern Sudan;
- (2) Are conducted under specific authorization from the Office of Foreign Assets Control in the Department of the Treasury, or are expressly exempted under Federal law from the requirement to be conducted under such authorization;
- (3) Consist of providing goods or services to marginalized populations of Sudan;
- (4) Consist of providing goods or services to an internationally recognized peacekeeping force or humanitarian organization;
- (5) Consist of providing goods or services that are used only to promote health or education; or
- (6) Have been voluntarily suspended.

Sensitive technology—

(1) Means hardware, software, telecommunications equipment, or any other technology that is to be used specifically—

- (i) To restrict the free flow of unbiased information in Iran; or
- (ii) To disrupt, monitor, or otherwise restrict speech of the people of Iran; and

(2) Does not include information or informational materials the export of which the President does not have the authority to regulate or prohibit pursuant to section 203(b)(3) of the International Emergency Economic Powers Act (50 U.S.C. 1702(b)(3)).

(b) Procedures.

(1) *Covered telecommunications and video surveillance.* The Offeror shall review the list of excluded parties in the System for Award Management (SAM) at <https://www.sam.gov> for entities excluded from receiving federal awards for “covered telecommunications equipment or services.”

(2) FASCSA Orders.

(i) The Offeror shall search in SAM for the phrase “FASCSA order” for any covered article, or any products or services produced or provided by a source, if there is an applicable FASCSA order described in paragraph (e) of FAR 52.240-91, Security Prohibitions and Exclusions.

(ii) The Offeror shall review the solicitation for any FASCSA orders that are not in SAM but are effective and apply to the solicitation and resultant contract (see FAR 40.204-1(c)(2)).

(iii) FASCSA orders issued after the date of solicitation do not apply unless added by an amendment to the solicitation.

(c) Covered telecommunications equipment or services representations. By submission of its offer, the Offeror represents that, after conducting a reasonable inquiry (that looks at any information in the Offeror’s possession but does not need to include an internal or third-party audit)—

(1) It will not provide covered telecommunications equipment or services to the Government in the performance of any contract, subcontract or other contractual instrument resulting from this solicitation, except as waived by the solicitation, or as disclosed in paragraph (g); and

(2) It does not use covered telecommunications equipment or services, or use any equipment, system, or service that uses covered telecommunications equipment or services, except as waived by the solicitation, or as disclosed in paragraph (g).

(d) FASCSA Representation. By submission of this offer, the offeror represents that it has conducted a reasonable inquiry, and that the offeror does not propose to provide or use in response to this solicitation any covered article, or any products or services produced or provided by a source, if the covered article or the source is prohibited by an applicable FASCSA order in effect on the date the solicitation was issued, except as waived by the solicitation, or as disclosed in paragraph (g). A reasonable inquiry will look at any information in the offeror’s possession but does not need to include an internal or third-party audit.

(e) Sudan certification. By submission of its offer, the offeror certifies, after conducting a reasonable inquiry (that looks at any information in the offeror’s possession but does not need to include an internal or third-party audit), that the offeror does not conduct any restricted business operations in Sudan.

(f) Iran Representation and Certifications.

(1) Except as provided in paragraph (f)(2) of this provision or if a waiver has been granted in accordance with FAR 40.203-3, the offeror, after conducting a reasonable inquiry (that looks at any information in the offeror’s possession but does not need to include an internal or third-party audit), by submission of its offer—

(i) Represents, to the best of its knowledge and belief, that the offeror does not export any sensitive technology to the government of Iran or any entities or individuals owned or controlled by, or acting on behalf or at the direction of, the government of Iran;

(ii) Certifies that the offeror, or any person (as defined at section 15 of the Iran Sanctions Act of 1996, Pub. L. 104-172, 50 U.S.C. 1701 note) owned or controlled by the offeror, does not engage in any activities for which sanctions may be imposed under section 5 of the Act. These sanctioned activities are in the areas of development of the petroleum resources of Iran, production of refined petroleum products in Iran, sale and provision of refined petroleum products to Iran, and contributing to Iran’s ability to acquire or develop certain weapons or technologies; and

(iii) Certifies that the offeror, and any person owned or controlled by the offeror, does not knowingly engage in any transaction that exceeds \$15,000 with Iran’s Revolutionary Guard Corps or any of its officials, agents, or affiliates, the property and interests in property of which are blocked pursuant to the International Emergency Economic

Powers Act (50 U.S.C. 1701 et seq.) (see OFAC's Specially Designated Nationals and Blocked Persons List at <https://www.treasury.gov/resource-center/sanctions/SDN-List/Pages/default.aspx>)

(2) Exception for trade agreements. The representation and certification requirements of paragraph (f)(1) of this provision do not apply if—

(i) This solicitation includes a trade agreements notice or certification (e.g., 52.225-6, Trade Agreements Certificate); and

(ii) The offeror has certified that all the offered products to be supplied are designated country end products or designated country construction material.

(iii) The offeror shall email questions concerning sensitive technology to the Department of State at CISADA106@state.gov.

(g) *Disclosure.*

(1) If the Offeror is not able to represent compliance with the prohibitions in paragraphs (c) or (d), then the Offeror shall disclose within 72 hours to the contracting office identified in paragraph (g)(2) the following information for each product or service not compliant:

(i) Contract number and order number, if applicable;

(ii) Identification of whether this disclosure relates to paragraph (c) on covered telecommunication equipment or services, or to paragraph (d) on FASCSA orders;

(iii) A description of the products or services that the Contractor identifies or has reason to suspect is prohibited (include brand; model number, such as the original equipment manufacturer (OEM) number, manufacturer part number, or wholesaler number; and item description, as applicable);

(iv) The entity that produced the product or service (include entity name, unique entity identifier, Contractor and Government Entity (CAGE) code, facilities responsible for design, fabrication, assembly, packaging, and test of the product, and whether the entity was the OEM or a distributor (provide manufacturer codes and distributor codes used for the product));

(v) Description of the functionality of the product or service and how that functionality impacts the risk to the product or service;

(vi) An explanation of any factors relevant to determining if the product or service should be permitted by an applicable exception, exemption, or waiver (if the offeror would like the Government to consider a waiver);

(vii) Whether alternative products or services are available that would be compliant with the prohibition;

(viii) If the product or service is related to item maintenance, include the following information on the item being maintained:

(A) Brand;

(B) Model number, OEM number, manufacturer part number, or wholesaler number; and

(C) Item description, as applicable.

(ix) Any readily available information about mitigation actions undertaken or recommended.

(2) If a disclosure is required to be submitted to a contracting office, the offeror shall submit the disclosure as follows:

(i) If a Department of Defense contracting office, the offeror shall submit the disclosure to the website at <https://dibnet.dod.mil>.

(ii) For all other contracting offices, the Offeror shall submit the disclosure to the Contracting Officer.

(3) If the disclosure provided does not contain any of the information required by paragraph (1), and the Offeror later discovers new information that is required by paragraph (1), then the Offeror shall submit a subsequent disclosure within 72 hours of discovering the new information.

(h) *Executive agency review of disclosures.* The Contracting Officer will review disclosures provided in paragraph (g) to determine if any applicable waiver may be sought. The Contracting Officer may choose not to pursue a waiver and may instead make an award to an Offeror that does not require a waiver.

(End of provision)

FAR 52.240-91 Security Prohibitions and Exclusions (NOV 2025)

As prescribed in 40.205(b), insert the following clause:

Security Prohibitions and Exclusions (NOV 2025)

(a) *Definitions.* As used in this clause—

American Security Drone Act-covered foreign entity means an entity included on a list that the Federal Acquisition Security Council (FASC) develops and maintains and publishes in the System for Award Management (SAM) at <https://www.sam.gov> (section 1822 of Pub. L. 118-31, 41 U.S.C. 3901 note prec.).

Backhaul means intermediate links between the core network, or backbone network, and the small subnetworks at the edge of the network (e.g., connecting cell phones/towers to the core telephone network). Backhaul can be wireless (e.g., microwave) or wired (e.g., fiber optic, coaxial cable, Ethernet).

Covered application means the social networking service TikTok or any successor application or service developed or provided by ByteDance Limited or an entity owned by ByteDance Limited.

Covered article, as defined in 41 U.S.C. 4713(k), means:

- (1) Information technology, as defined in 40 U.S.C. 11101, including cloud computing services of all types;
- (2) Telecommunications equipment or telecommunications service, as those terms are defined in section 3 of the Communications Act of 1934 (47 U.S.C. 153);
- (3) The processing of information on a Federal or non-Federal information system, subject to the requirements of the Controlled Unclassified Information program (see 32 CFR part 2002); or
- (4) Hardware, systems, devices, software, or services that include embedded or incidental information technology.

Covered foreign country means The People's Republic of China.

Covered telecommunications equipment or services means—

- (1) Telecommunications equipment produced by Huawei Technologies Company or ZTE Corporation (or any subsidiary or affiliate of such entities);
- (2) For the purpose of public safety, security of Government facilities, physical security surveillance of critical infrastructure, and other national security purposes, video surveillance and telecommunications equipment produced by Hytera Communications Corporation, Hangzhou Hikvision Digital Technology Company, or Dahua Technology Company (or any subsidiary or affiliate of such entities);
- (3) Telecommunications or video surveillance services provided by such entities or using such equipment; or
- (4) Telecommunications or video surveillance equipment or services produced or provided by an entity that the Secretary of Defense, in consultation with the Director of National Intelligence or the Director of the Federal Bureau of Investigation, reasonably believes to be an entity owned or controlled by, or otherwise connected to, the government of a covered foreign country.

Critical technology means—

- (1) Defense articles or defense services included on the United States Munitions List set forth in the International Traffic in Arms Regulations under subchapter M of chapter I of title 22, Code of Federal Regulations;
- (2) Items included on the Commerce Control List set forth in Supplement No. 1 to part 774 of the Export Administration Regulations under subchapter C of chapter VII of title 15, Code of Federal Regulations, and controlled—
 - (i) Pursuant to multilateral regimes, including for reasons relating to national security, chemical and biological weapons proliferation, nuclear nonproliferation, or missile technology; or
 - (ii) For reasons relating to regional stability or surreptitious listening;
- (3) Specially designed and prepared nuclear equipment, parts and components, materials, software, and technology covered by part 810 of title 10, Code of Federal Regulations (relating to assistance to foreign atomic energy activities);
- (4) Nuclear facilities, equipment, and material covered by part 110 of title 10, Code of Federal Regulations (relating to export and import of nuclear equipment and material);
- (5) Select agents and toxins covered by part 331 of title 7, Code of Federal Regulations, part 121 of title 9 of such Code, or part 73 of title 42 of such Code; or
- (6) Emerging and foundational technologies controlled pursuant to section 1758 of the Export Control Reform Act of 2018 (50 U.S.C. 4817).

FASC-prohibited unmanned aircraft system means an unmanned aircraft system manufactured or assembled by an American Security Drone Act—covered foreign entity.

FASCSA order means any of the following orders issued under the Federal Acquisition Supply Chain Security Act (FASCSA) requiring removing covered articles from executive agency information systems or excluding one or more named sources or named covered articles from executive agency procurement actions, as described in 41 CFR 201-1.303(d) and (e):

- (1) The Secretary of Homeland Security may issue FASCSA orders that apply to civilian agencies, to the extent not covered by paragraph (2) or (3) of this definition. This type of FASCSA order may be referred to as a Department of Homeland Security (DHS) FASCSA order.

(2) The Secretary of Defense may issue FASCSA orders that apply to the Department of Defense (DoD) and national security systems other than sensitive compartmented information systems. This type of FASCSA order may be referred to as a DoD FASCSA order.

(3) The Director of National Intelligence (DNI) may issue FASCSA orders that apply to the intelligence community and sensitive compartmented information systems, to the extent not covered by paragraph (2) of this definition. This type of FASCSA order may be referred to as a DNI FASCSA order.

Information technology, as defined in 40 U.S.C. 11101(6)—

(1) Means any equipment or interconnected system or subsystem of equipment, used in the automatic acquisition, storage, analysis, evaluation, manipulation, management, movement, control, display, switching, interchange, transmission, or reception of data or information by the executive agency, if the equipment is used by the executive agency directly or is used by a contractor under a contract with the executive agency that requires the use—

(i) Of that equipment; or

(ii) Of that equipment to a significant extent in the performance of a service or the furnishing of a product;

(2) Includes computers, ancillary equipment (including imaging peripherals, input, output, and storage devices necessary for security and surveillance), peripheral equipment designed to be controlled by the central processing unit of a computer, software, firmware and similar procedures, services (including support services), and related resources; but

(3) Does not include any equipment acquired by a Federal contractor incidental to a Federal contract.

Intelligence community, as defined by 50 U.S.C. 3003(4), means the following—

(1) The Office of the Director of National Intelligence;

(2) The Central Intelligence Agency;

(3) The National Security Agency;

(4) The Defense Intelligence Agency;

(5) The National Geospatial-Intelligence Agency;

(6) The National Reconnaissance Office;

(7) Other offices within the Department of Defense for the collection of specialized national intelligence through reconnaissance programs;

(8) The intelligence elements of the Army, the Navy, the Air Force, the Marine Corps, the Coast Guard, the Federal Bureau of Investigation, the Drug Enforcement Administration, and the Department of Energy;

(9) The Bureau of Intelligence and Research of the Department of State;

(10) The Office of Intelligence and Analysis of the Department of the Treasury;

(11) The Office of Intelligence and Analysis of the Department of Homeland Security; or

(12) Such other elements of any department or agency as may be designated by the President, or designated jointly by the Director of National Intelligence and the head of the department or agency concerned, as an element of the intelligence community.

Interconnection arrangements means arrangements governing the physical connection of two or more networks to allow the use of another's network to hand off traffic where it is ultimately delivered (e.g., connecting a customer of telephone provider A to a customer of telephone company B) or sharing data and other information resources.

Kaspersky Lab-covered article means any hardware, software, or service that—

(1) Is developed or provided by a Kaspersky Lab-covered entity;

(2) Includes any hardware, software, or service developed or provided in whole or in part by a Kaspersky Lab-covered entity; or

(3) Contains components using any hardware or software developed in whole or in part by a Kaspersky Lab-covered entity.

Kaspersky Lab-covered entity means—

(1) Kaspersky Lab;

(2) Any successor entity to Kaspersky Lab, including any change in name, e.g., "Kaspersky";

(3) Any entity that controls, is controlled by, or is under common control with Kaspersky Lab; or

(4) Any entity of which Kaspersky Lab has a majority ownership.

National security system, as defined in 44 U.S.C. 3552, means any information system (including any telecommunications system) used or operated by an agency or by a contractor of an agency, or other organization on behalf of an agency—

(1) The function, operation, or use of which involves intelligence activities; involves cryptologic activities related to national security; involves command and control of military forces; involves equipment that is an integral part of a weapon or weapons system; or is critical to the direct fulfillment of military or intelligence missions, but does not include a system that is to be used for routine administrative and business applications (including payroll, finance, logistics, and personnel management applications); or

(2) Is protected at all times by procedures established for information that have been specifically authorized under criteria established by an Executive order or an Act of Congress to be kept classified in the interest of national defense or foreign policy.

Roaming means cellular communications services (e.g., voice, video, data) received from a visited network when unable to connect to the facilities of the home network either because signal coverage is too weak or because traffic is too high.

Sensitive compartmented information means classified information concerning or derived from intelligence sources, methods, or analytical processes, which is required to be handled within formal access control systems established by the Director of National Intelligence.

Sensitive compartmented information system means a national security system authorized to process or store sensitive compartmented information.

Source means a non-Federal supplier, or potential supplier, of products or services, at any tier.

Subsidiary means an entity in which more than 50 percent of the entity is owned directly by a parent corporation or through another subsidiary of a parent corporation.

Substantial or essential component means any component necessary for the proper function or performance of a piece of equipment, system, or service.

Unmanned aircraft means an aircraft that is operated without the possibility of direct human intervention from within or on the aircraft (49 U.S.C. 44801(11)).

Unmanned aircraft system means an unmanned aircraft and associated elements (including communication links and the components that control the unmanned aircraft) that are required for the operator to operate safely and efficiently in the national airspace system (49 U.S.C. 44801(12)).

(b) *Prohibitions on providing or using specific products or services in performance of contract.* Unless a waiver or exception applies, the Contractor is prohibited from providing any products or services to the Government or using in the performance of the contract any of the following:

(1) A covered application on any information technology owned or managed by the Government, or on any information technology used or provided by the Contractor under this contract, including equipment provided by the Contractor's employees (section 102 of Division R of the Consolidated Appropriations Act, 2023 (Pub. L. 117-328));

(2) A Kaspersky Lab-covered article (Section 1634 of Division A of the National Defense Authorization Act for Fiscal Year 2018 (Pub. L. 115-91));

(3) Covered telecommunications equipment or services used as a substantial or essential component of any system, or as critical technology as part of any system (paragraphs (a)(1)(A) of section 889 of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Pub. L. 115-232)). This does not prohibit contractors from providing—

(i) A service that connects to the facilities of a third-party, such as backhaul, roaming, or interconnection arrangements; or

(ii) Telecommunications equipment that cannot route or redirect user data traffic or cannot permit visibility into any user data or packets that such equipment transmits or otherwise handles.

(c) *Prohibition on unmanned aircraft systems manufactured or assembled by American Security Drone Act—covered foreign entities.*

(1) *Prohibition.* The Contractor is prohibited from—

(i) Delivering any FASC-prohibited unmanned aircraft system, which includes unmanned aircraft (i.e., drones) and associated elements (sections 1823 and 1826 of American Security Drone Act of 2023, within the National Defense Authorization Act for Fiscal Year 2024, Pub. L. 118-31, Div. A, Title XVIII, Subtitle B, 41 U.S.C. 3901 note prec.);

(ii) On or after December 22, 2025, operating a FASC-prohibited unmanned aircraft system in the performance of the contract (section 1824 of Pub. L. 118-31); and

(iii) On or after December 22, 2025, using Federal funds to procure or operate a FASC-prohibited unmanned aircraft system (section 1825 of Pub. L. 118-31).

(2) *Procedures.* The Contractor shall search SAM for the FASC-maintained list of American Security Drone Act—covered foreign entities before proposing, or using in performance of the contract, any unmanned aircraft system. Also, the Contractor shall ensure any effort or expenditure associated with a FASC-prohibited unmanned aircraft system is consistent with a corresponding exemption, exception, or waiver determination expressly stated in the contract.

(3) *Exemptions, exceptions, and waivers.* The prohibitions in paragraph (c) of this clause do not apply where the agency has determined an exemption, exception, or waiver applies, and the contract indicates that such a determination has been made. See sections 1823 through 1825 and 1832 of Public Law 118-31 for statutory requirements pertaining to exemptions, exceptions, and waivers.

(d) *Prohibition on using or providing specific products or services or conducting certain transactions regardless of connection to contract.*

(1) *Certain telecommunications and video surveillance equipment, systems, or services.*

(i) Unless an applicable waiver has been issued by the Government, the Contractor cannot use any equipment, systems, or services that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system (paragraph (a)(1)(B) of section 889 of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Pub. L. 115-232)).

(ii) This prohibition applies to using covered telecommunications equipment or services, regardless of whether that use is in performance of work under a Federal contract. This does not prohibit the contractor from using—

(A) A service that connects to the facilities of a third party, such as backhaul, roaming, or interconnection arrangements; or

(B) Telecommunications equipment that cannot route or redirect user data traffic or cannot permit visibility into any user data or packets that such equipment transmits or otherwise handles.

(2) *Office of Foreign Assets Control Restrictions.*

(i) Except as authorized by the Office of Foreign Assets Control (OFAC) in the Department of the Treasury, the Contractor shall not acquire, for use in the performance of this contract, any supplies or services if any proclamation, Executive order, or statute administered by OFAC, or if OFAC's implementing regulations at 31 CFR chapter V, would prohibit such a transaction by a person subject to the jurisdiction of the United States.

(ii) Except as authorized by OFAC, most transactions involving Cuba, Iran, and Sudan are prohibited, as are most imports from Burma or North Korea, into the United States or its outlying areas.

(A) For lists of entities and individuals subject to economic sanctions, see OFAC's List of Specially Designated Nationals and Blocked Persons at <https://home.treasury.gov/policy-issues/financial-sanctions/specially-designated-nationals-and-blocked-persons-list-sdn-human-readable-lists>.

(B) For more information about these restrictions, as well as updates, see OFAC's regulations at 31 CFR chapter V and at <https://home.treasury.gov/policy-issues/office-of-foreign-assets-control-sanctions-programs-and-information>.

(C) To conduct electronic screens of potential parties to regulated transactions, see the consolidated screening list at <https://www.trade.gov/consolidated-screening-list>, which consolidates multiple export screening lists of the Departments of Commerce, State, and the Treasury.

(3) *Sudan prohibition.* The Contractor is prohibited from conducting any restricted business operations in Sudan in accordance with Accountability and Divestment Act of 2007 (Pub. L. 110-174).

(4) *Iran prohibitions.*

(i) Unless an exception applies according to paragraph (d)(4)(iii) or the Government grants a waiver, the contractor shall not engage in certain activities or transactions relating to Iran (section 6(b)(1)(A) of Iran Sanctions Act (50 U.S.C. 1701 note)).

(ii) Unless an exception applies according to paragraph (d)(4)(iii) or the Government grants a waiver, contractor shall not export certain sensitive technology to Iran, as determined by the President, and has an active exclusion in SAM (22 U.S.C. 8515).

(iii) The prohibition in paragraphs (d)(4)(i) and (d)(4)(ii) do not apply if the acquisition is subject to trade agreements and the offeror certifies that all the offered products are designated country end products or designated country construction material (see part 25).

(iv) Unless an exception applies or the Government grants a waiver, contractors are prohibited from knowingly engaging in any significant transaction (i.e., over \$15,000) with Iran's Revolutionary Guard Corps or any of its officials, agents, or affiliates, the property and interests in property of which are blocked according to the International Emergency Economic Powers Act (section 6(b)(1)(B) of Iran Sanctions Act (50 U.S.C. 1701 note)).

(e) *Governmentwide exclusion and removal orders.*

(1) Unless the Government has issued an applicable waiver, contractors shall not provide or use as part of the performance of the contract any covered article, or any products or services produced or provided by a source, if the covered article or the source is prohibited by an applicable FASCSA order as follows:

(i) For solicitations and contracts awarded by a Department of Defense contracting office, DoD FASCSA orders apply.

(ii) For all other solicitations and contracts, DHS FASCSA orders apply.

(2) The Contractor shall search for the phrase "FASCSA order" in the System for Award Management (SAM) at <https://www.sam.gov> to locate applicable FASCSA orders.

(3) The Government may identify in the solicitation other FASCSA orders that are not in SAM, which are effective and apply to the solicitation and resulting contract.

(4) A FASCSA order issued after the date of solicitation applies to this contract only if added by an amendment to the solicitation or modification to the contract (see FAR 40.204-1(c)).

(f) *Reasonable inquiry.* The contractor shall conduct a reasonable inquiry to determine if there are any prohibited products or services. The inquiry will look at any information in the entity's possession but does not need to include an internal or third-party audit.

(g) *Removal of prohibited products and services.* For Federal Supply Schedules, Governmentwide acquisition contracts, multi-agency contracts or any other procurement instrument intended for use by multiple agencies, upon notification from the Contracting Officer, during the performance of the contract, the Contractor shall promptly make any necessary changes or modifications to remove any product or service produced or provided by a source that this clause prohibits.

(h) *General report.*

(1) If the Contractor identifies or is notified by any source, (including a subcontractor at any tier), that any product or service provided or used (or to be provided or used) during contract performance does not comply with any prohibition in this clause, then the Contractor shall report the following information, or as much information is known, in writing to the contracting office as identified in paragraph (h)(2) within 72 hours:

(i) Contract number and order number, if applicable;

(ii) The specific prohibition the product or service is not complying with;

(iii) A description of the products or services that the Contractor identifies or has reason to suspect is prohibited (include brand; model number, such as the original equipment manufacturer (OEM) number, manufacturer part number, or wholesaler number; and item description, as applicable);

(iv) The entity that produced the product or service (include entity name, unique entity identifier, Contractor and Government Entity (CAGE) code, facilities responsible for design, fabrication, assembly, packaging, and test of the product, and whether the entity was the OEM or a distributor (provide manufacturer codes and distributor codes used for the product));

(v) Description of the functionality of the product or service and how that functionality impacts the risk to the product or service;

(vi) An explanation of any factors relevant to determining if the product or service should be permitted by an applicable exception, exemption, or waiver (if the contractor would like the Government to consider a waiver, and asks for such a waiver);

(vii) Whether alternative products or services are available that would comply with the prohibition;

(viii) If the product or service is related to item maintenance, include the following information on the item being maintained:

(A) Brand;

(B) Model number, OEM number, manufacturer part number, or wholesaler number; and

(C) Item description, as applicable.

(ix) Any readily available information about mitigation actions implemented or recommended.

(2) If a report must be submitted to a contracting office, the Contractor shall submit the report as follows:

(i) If a Department of Defense contracting office, the Contractor shall report to the website at <https://dibnet.dod.mil>.

(ii) For all other contracting offices, the Contractor shall report to the Contracting Officer.

(iii) For indefinite delivery contracts, the Contractor shall report to both the contracting office for the indefinite delivery contract and the contracting office for any affected order.

(3) If the report provided does not contain any of the information required by paragraph (h)(1) of this clause, and the contractor later discovers new information that is required by paragraph (h)(1) of this clause, then the contractor shall submit a subsequent report within 72 hours of discovering the new information.

(4) The contractor shall also report the information in paragraph (h)(1) if the contractor wishes to ask for a waiver of the requirements of a new FASCSA order being applied through modification.

(i) *New FASCSA orders report.*

(1) During contract performance, the Contractor shall review SAM at least once every three months, or as advised by the Contracting Officer, to check for covered articles subject to FASCSA order(s), or for products or services produced by a source subject to FASCSA order(s) not currently identified under paragraph (e) of this clause.

(2) If the Contractor identifies a new FASCSA order(s) that could impact their supply chain, then the Contractor shall conduct a reasonable inquiry to identify whether a covered article or product or service produced or provided by a source subject to the FASCSA order(s) was provided to the Government or used during contract performance. The inquiry will look at any information in the entity's possession but does not need to include an internal or third-party audit.

(3) The Contractor shall submit a report to the contracting office identified in paragraph (h)(2) of this clause if the Contractor identifies, including through any notification by a subcontractor at any tier, that a covered article or product or service produced or provided by a source was provided to the Government or used during contract performance and is subject to a FASCSA order(s). For indefinite delivery contracts, the Contractor shall report to both the contracting office for the indefinite delivery contract and the contracting office for any affected order. The Contractor shall report the following information within 72 hours for each covered article or each product or service produced or provided by a source, where the covered article or source is subject to a FASCSA order:

(i) Contract number and order number, if applicable;

(ii) Name of the covered article or source subject to a FASCSA order;

(iii) The specific FASCSA order the product or service does not comply with;

(iv) The elements of (h)(1)(iii) through (ix) of this clause.

(j) Subcontracts. The Contractor shall insert the substance of this clause, including this paragraph (j) but excluding subparagraphs (d)(1) and (i)(1), in all subcontracts and other contractual instruments, including subcontracts for acquiring commercial products or commercial services.

(End of clause)

Alternate I (DATE XXXX). As prescribed in 40.205(b), substitute the following paragraph (e)(1) for paragraph (e)(1) of the basic clause:

(e) *Governmentwide exclusion and removal orders.*

(1) Contractors are prohibited from providing or using as part of the performance of the contract any covered article, or any products or services produced or provided by a source, if the covered article or the source is prohibited by any applicable FASCSA orders identified by the checkbox(es) in this paragraph (e)(1). [*Contracting Officer must select either "yes" or "no" for each of the following types of FASCSA orders:*]

Yes ☐ No ☐ DHS FASCSA Order

Yes ☐ No ☐ DoD FASCSA Order

Yes ☐ No ☐ DNI FASCSA Order

Instructions to Schedule Holders

CDCH_M005 Technical Strength in Relation to Cost/Price (Jul 2017)

Offerors are advised that all evaluation factors other than cost or price, when combined are significantly more important than cost or price. If technical proposals are judged to be essentially equal, cost or price will become the determining factor. Award will be made to the responsible offeror submitting the proposal (Technical and Price) determined to be the most advantageous and present the best value to the Government as evaluated under the criteria described in this Section.

RFQ Preparation and Submittal Instructions:

All quotes shall be submitted in response to this RFQ by 3 PM Eastern Time on June 19, 2026 through GSA eBuy (<https://www.ebuy.gsa.gov/ebuy>)

RFQ questions shall be submitted no later than June 10, 2026, 3 PM Eastern Time via email to the contracting officer at jpowell5@cdc.gov. The subject of the mail should include the reference “Questions for 75D301-26-Q-78924”

Responses shall be provided to all interested parties via GSA eBuy.

In order to evaluate contractors for award interested MAS Schedule Contractors are required to submit one (1) technical volume and (1) price volume.

Instructions for Task Order Technical Volume

Page Limit: 20 pages

Technical Volume Format: Pages shall be 8 ½ x 11, Times New Roman font, 12 pt font, page count stipulated above includes cover letter, table of contents, appendices, attachments and all other documents. (Resumes or CVs and cover/title page do not count towards the page limit. Past Performance Questionnaires and CPARS evaluation reports also do not count towards the page limit). Text included in any graphics or diagrams may be no less than 10 point font. All electronic files shall be in MS Word or Excel format as applicable (unprotected). Any formulas used in deriving cost/price quote shall be visible when cursor is positioned in cell (i.e. do not convert formulas to values).

Evaluation Factors

The contractor’s approach to software maintenance and sustainment will be evaluated to determine the likelihood of successful performance.

The Technical Volume shall be evaluated according to the following three rated (3) Non-Price Evaluation Factors:

1. Technical Understanding of the Requirement
2. Proposed Staff and Key Personnel
3. Technical Approach

The evaluation factors, will be rated as follow:

Evaluation Factor	Points Possible
Technical Understanding of the Requirement	10 points
Proposed Staff and Key Personnel	30 points
Technical Approach	60 points
	100 points possible

Breakdown of the Technical Evaluation Factors

These technical evaluation factors are further defined as follows:

Factor 1: Technical Understanding of the Requirement – 10 points

Offerors shall submit a Technical Understanding volume that clearly demonstrates their comprehension of the CDC Office of Safety Security and Asset Management (OSSAM) needs for sustaining, supporting, integrating, documenting, and training users on the Integrated Facilities Management System (IFMS), including TRIRIGA and non-TRIRIGA components, CAD integrator, EMS interfaces, and associated operational environments.

- a. Understanding of technical, operational, and quality-assurance issues related to enterprise application operation and maintenance, including application servers, databases, middleware, storage, and networking.
- b. Familiarity with laboratory-style environmental controls in IT contexts, such as data center airflow, cooling management, and two-position fixed-volume directional airflow concepts as they impact application availability and equipment reliability.
- c. Knowledge of specialized facility-integrated systems that support laboratory or animal research environments (e.g., systems that feed environmental or equipment status into IFMS), including data collection, processing, and maintenance considerations for sensor and equipment interfaces.
- d. Knowledge of Occupational Safety and Health (OSH) considerations as they relate to IT operations and routine maintenance activities performed in CDC facilities (for example, electrical safety, confined space precautions, and safe handling of equipment during on-site visits).
- e. Proficiency with Building Automation Systems (BAS) and facility monitoring platforms as they relate to IFMS integrations — specifically for alarm ingestion, mapping facility deficiencies to IFMS workflows, root-cause analysis, and coordinating remediation activities.
- f. Awareness of biosafety and decontamination protocols relevant to IT personnel who may enter laboratory or containment spaces to perform hardware maintenance or install equipment, and how those protocols affect scheduling, access, and documentation in IFMS.
- g. Understanding of maintenance and troubleshooting issues for facility-connected support equipment used by IT operations (for example, kitchen-like support systems in breakroom areas that impact facilities records or vendor coordination tracked in IFMS).
- h. Knowledge of data center environmental control and power-conditioning issues that affect IFMS-hosted services, including temperature/humidity impacts on hardware, UPS/battery systems, power distribution, and implications for system availability and incident reporting.
- i. Experience addressing operational and maintenance concerns for equipment with strict environmental requirements tracked in IFMS (for example, ultra-low temperature freezers or specialized lab equipment), including monitoring, alerting, integration of readings into IFMS, and recovery procedures after failures.

Factor 2: Proposed Staff and Key Personnel – 30 points

The contractor must demonstrate the ability to recruit, retain, and provide qualified staff, timely replacements, and designated back-ups for all required roles supporting IFMS. Submissions must describe qualifications and relevant experience for the proposed Project Manager, Technical Leads, Integration Specialist, CAD/Space Specialist, System Administrators, Report Developers, Security/Compliance Lead, and other key personnel. Provide proposed levels of effort, planned on-site versus remote coverage, and contingency plans for immediate temporary coverage and permanent replacements. Explain retention strategies, training/knowledge-transfer practices, and how the contractor will maintain continuity of service during personnel transitions. If a Collective Bargaining Agreement applies, describe the contractor's approach to labor relations and dispute management to ensure workforce issues are resolved without government involvement and without disruption to CDC operations.

Factor 3: Technical Approach – 60 points

The contractor must describe in detail how they intend to:

- a. Demonstrate understanding of IFMS mission and CDC OSSAM objectives, including TRIRIGA and non-TRIRIGA integrations, CAD Integrator, EMS feeds, and Reservations/Space Management.
- b. Clear, feasible maintenance strategy covering corrective, preventive, adaptive, and perfective maintenance across dev/stage/prod/DR environments.
- c. Detailed incident and help-desk support model: ticket triage, priority definitions, escalation paths, on-site/remote coverage, and measurable SLA targets.
- d. Robust change, configuration, and release management approach: regression testing, version control, deployment procedures, and rollback plans.
- e. Integration management and interface support: monitoring, reconciliation, error handling, and change control for EMS SQL feeds, GSA/OCIO imports, CAD Integrator, and APIs.
- f. CAD Integrator sustainment process ensuring CAD-to-space mapping accuracy, graphics validation, and adherence to CDC CAD standards.
- g. Quality assurance and testing practices: test scripts/checklists, user acceptance testing, automated/regression test strategies, and criteria for acceptance.
- h. Documentation and training deliverables: runbooks, technical documents, release notes, help content, test artifacts, and training materials with distribution via IFMS Help.
- i. Coordination with CDC AHB and security teams: environment management, procedural runbook updates, security assessment/certification support, and compliance with system security plan controls.
- j. Performance monitoring and reporting: proposed metrics/KPIs, monthly reporting format, weekly/quarterly review cadence, and methods for tracking SLA/KPI performance.
- k. Risk identification and mitigation: key technical and operational risks (e.g., CAD data integrity, integration failures, staffing gaps) with concrete mitigation and continuity plans.
- l. Evidence of past relevant experience and tools: examples of prior TRIRIGA/IFMS work, automation or tooling used, and how lessons learned will be applied to reduce risk.

Instructions for Price Volume

No Page Limit.

The price volume shall be comprised of the following elements:

- a. A completed copy of Section B
- b. When preparing the price volume, the offeror shall identify in an excel spreadsheet the labor required to include the proposed GSA Schedule Labor categories, labor rate, labor hours, discount percentage

and the discounted labor rate and any other non-labor costs (materials, supplies, travel, sub-contracts, consultants, etc.) with supporting documentation provided in the price volume. Additionally, you are to sum up your price volume by providing a total cost line on your excel spreadsheet. The total cost on your excel spreadsheet shall be the same as the total cost for Section B.

NOTE: Contractors should to the maximum extent possible propose labor categories and labor rates evaluated and accepted as part of your Basic GSA Schedule SIN 54151S Contract proposal submission.

- c. Subcontractor Quotes shall be provided for all subcontracts of more than \$250 thousand per year. Proposed subcontractor shall include a detailed cost breakdown to include itemization for direct labor, indirect labor, labor burden, fringes, materials, equipment, overhead, profit, and bonding. The actual subcontractor quote(s) must be submitted. The contractor shall make a best value determination for all selected subcontractors. The contractor shall include a narrative of the best value determination for all selected subcontractors above \$250 thousand per year in the price volume.

Pre-Award Supply Chain Risk Assessment of Apparent Awardee

PROSPECTIVE CONTRACTOR RESPONSIBILITY AND ELIGIBILITY STANDARDS: SUPPLY CHAIN RISK ASSESSMENT

Federal Acquisition Regulation (FAR) Subpart 9.1 sets the standards and procedures for determining prospective contractor and subcontractor responsibility. FAR 9.104-2 allows for special standards of responsibility. Special standards in the responsibility determination: The government will assess the offeror's submitted information in provision HHSAR 352.204-74, Supply Chain Risk Assessment (Deviation), any required supporting data, and information from other sources for the purpose of evaluating foreign ownership, control or influence and other areas of supply chain risk, when necessary, and this information will be treated by HHS, to the extent permitted by law, as business or financial information submitted in confidence.

The Government may request additional information or a mitigation plan from the offeror that addresses risks identified in the supply chain risk assessment. Any requests for additional information resulting from the supply chain risk assessment do not constitute exchanges or discussions as described in FAR 15.306.

Any mitigation plans and amendments determined necessary and required to be implemented and sustained during contract performance will be incorporated into the contract.

In order to manage supply chain risk, the Government may consider information, public and non-public, relating to an offeror's supply chain in determining responsibility. The Government may remove the offeror from further consideration due to a Supply Chain Risk determination, which renders the offeror non-responsible. The Government reserves the right to limit the disclosure of information to the Offeror regarding the risk in accordance with all applicable laws or regulations.

Failure by the offeror to affirmatively demonstrate adequate compliance with the general standards of prospective contractor responsibility at FAR 9.104-1, and any special standards established for this acquisition under FAR 9.104-2, may result in a determination of non-responsibility. As with all aspects of prospective contractor responsibility, a finding of non-responsibility can be made at any time prior to contract award. Per FAR 9.103(b), if the prospective contractor is a small business concern, responsibility will be determined in accordance with Subpart 19.6, Certificates of Competency and Determinations of Responsibility. If the prospective contractor is a Section 8(a) participant, see Subpart 19.8.
